Its essential components include making a Video-Ad, a radio Advertisement, billboard/outdoor display, print ads, and developing an innovative tactic that defines your ad campaign. Then, a team from each hall builds the ad campaign based on the Problem Statement provided, making the presentation presented before the judges. The duration of the event is 10 days.

This event can further develop the artistic and creative side.

Some basic steps involved in this event are- Brainstorm the ideas, Implement deliverables, Make the deliverables using software and prepare a presentation

# DATA ANALYTICS

In the Data Analytics General Championship event, each participating hall has to analyze a given data set to solve the corresponding problem statement. Participating halls have to submit their results and a report within the deadline, which is usually ten days after the day on which the problem statement is given.

This competition comes under the Technology General Championship, Strategy Cup. This is evaluated for 50 points.

# CASE STUDY

An event for business enthusiasts! A case study is an in-depth analysis of a group, event, or company. The ‘Case’; which forms the basic object of the study provides a base on which the study is conducted and the subsequent solution is arrived upon. In the Inter-Hall event, a team from each Hall of residence builds a solution based on a particular Problem Statement provided by the gymkhana. This solution is thereafter presented by the team from each hall of residence before the judges.

It is an activity that is really intellectually challenging and can help one to further enhance your thinking and analytical ability. It challenges your thinking at each point and implores you to make a lot of key decisions which would hold great implications in your eventual solution. Hence it develops your decision-making to a great extent.

# PRODUCT DESIGN

It is an open event means you have to start everything from scratch. It is an inter-hall competition that involves developing ideas for products that are feasible and unique in some or the other aspects. A team from each hall submits an idea along with its implementation and execution plans.

It requires an ability to think differently and to develop feasible solutions which hold great promise in the real world and can be implemented without exorbitant costs.

Marks - 100

No of participants - 20

# OPEN SOFT

Open soft is one of the events of the General Championship (technology) under the Application cup section.

This event comprises programming and coding.

A problem statement containing specifications of the software to be developed and related constraints is released to the public at the start of the competitions. Each hall then works through their solution over the stipulated even period to make a submission. Later, each hall presents its solution to a panel of internal and external judges who then award marks and accordingly rank the teams

Languages used are java, python,c++ etc

Points: 100 marks

Duration: 20 days

No. of participants allowed- 20

# HARDWARE MODELLING

This interhall competition involves building up working models/ objects designed with certain innovative features which make it different from all products of that particular type. It's an open event that means that candidate is not provided with any base to work upon. he/she has to start from scratch. It involves one's ability to think out of the box and make ideas feasible and implement them in working models.

Examples of hardware models can be humanoid, automated shopping carts which are made by students in previous years.

Steps to be performed - Discussion of new ideas, Getting required components, Assembling of components, and Presentation of the final model

# BIZ QUIZ AND TECH QUIZ

The GC Quiz is a Biz-Tech Quiz with questions on both business and technology. Technology and business fanatics are expected to work on the questions given in the time allotted and advance to the Finals round by clearing the Prelims phase.

**Team Size:** The maximum number of participants per team is 4 and a maximum of 4 members can participate from each hall.

There are 2 rounds in the quiz

- Prelims round
- Final round

The Top 6 teams in the prelims round qualify for the Finale.

The maximum number of participants in a team can be 4. The Maximum number of participants from each hall is 4.

The quiz consists of a prelim round and the top six teams qualify for the final round, which is of infinite bounce format. [Quiz master's discretion]

The points for each question are based on the difficulty of that particular question, bonus points, and tie-breaker questions are based on the Quiz Master's discretion.

The final round goes live as the quiz master presents the questions and the teams have to answer them by following the infinite bounce and pounce format.

# **SPORTS & GAMES**

There are a lot of sports and games part of the General Championship. Students get an opportunity to showcase their talent in the sports of their interest. Players are selected for the event following a selection procedure of each hall. The teams compete among themselves in a series of rounds and a winner for each sport is declared. IIT Kharagpur has excellent facilities to host all major sports and games like cricket, football, table tennis, basketball, etc.

# FOOTBALL

The teams for each hall are selected by the respective halls through their set procedure of selections. Each hall has its own football fields where the teams practice.

The main event is hosted in the Tata Sports Complex which has 2 full length floodlit football fields.

All the halls participate in the events with their full energy.

# BADMINTON

IIT Kharagpur has 5 full size badminton courts located in the Technology students Gymkhana building and has all excellent required facilities. IIT Kharagpur also signed MoU with Pullela Gopichand Badminton Academy (PGBA), to promote badminton and fitness of students. Besides this almost all halls have a badminton court for practicing.

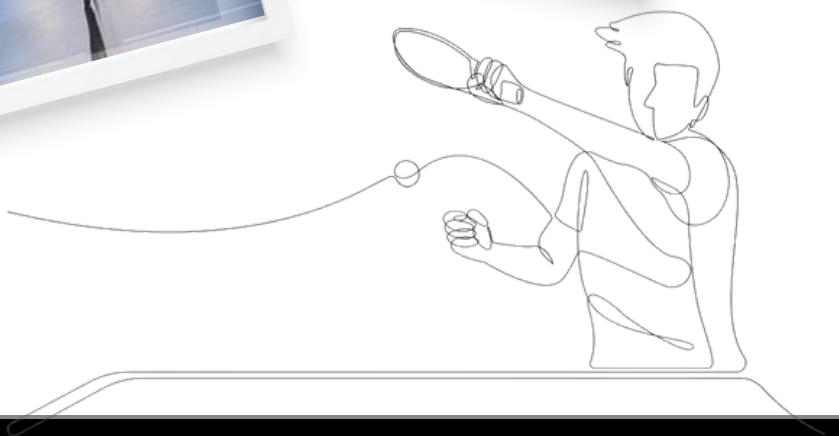

# TABLE TENNIS

The teams for each hall are selected by the respective halls through their set procedure of selections. Each hall has its own Table Tennis tables where the teams practice and also the selections take place.

IIT Kharagpur has 4 Stag 1000 DX table tennis boards, and a matted floor located in the old Gymkhana building.

All the halls participate in the events with their full energy.

All major formats of table tennis are a part of the events.

# SQUASH

IIT-KGP has one squash court built inside the Technology Students' Gymkhana near the gymnasium.

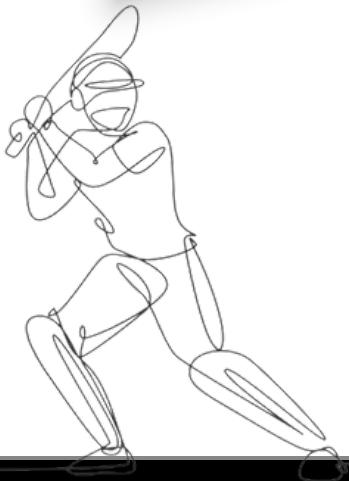

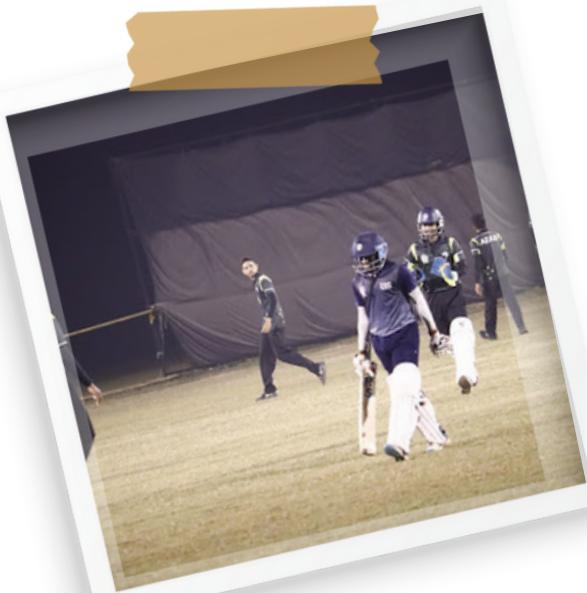

Only singles format is a part of the event.

# CRICKET

IIT Kharagpur has two cricket grounds in the Tata Sports Complex. The grounds have all the major facilities required and are floodlit. The grounds are well maintained throughout the year.

Besides, each hall has its own cricket pitch where the players can practice.

# BASKETBALL

Each hall has its own basketball court where the players can practice and usually the selections for the hall team is held.

IIT Kharagpur houses three courts in the premises of the Old Gymkhana which is behind Iosys which are well maintained and fairly equipped where the main events of General Championship(Basketball) are held.

# LAWN TENNIS
